

Digital Årø – List of Workshops and Livestream contributions

This list of workshops and live-stream contributions and times could still change slightly, but we wanted to provide you as much information about the content of the camp as possible.

Workshops

	Workshop	Facilitator/ Target Group
Open during the entire camp	<p>Virtual exhibition “One Day, I Will”</p> <p>The virtual version of Vincent Tremeau’s exhibition “One Day, I Will” was created to commemorate the 75th anniversary of the UN. This exhibition is a touching display of harsh realities of many children across the world. Learning materials have been created by global education experts to accompany discussions about the exhibition among children, youth and educators. Will be available during the entire camp. Visit here!</p>	NGO Mondo, The Juhan Kuus Documentary Photo Centre and the Estonian Ministry of Foreign Affairs, all ages
Open during 36 hours	<p>36-hours BioBlitz around the Baltic Sea</p> <p>The aim is to map as much of the biodiversity as possible during 36 hours while digital camping. If you see a bug, hear a bird, notice a plant, fungi, lichen or a mushroom etc. First, sign in or make a new account to iNaturalist. Download the app to your phone. Then sign up here to join the right bioblitz! And when the bioblitz is launched on 4th of May, go out, take as many pictures as possible of different lifeforms, mark the date and place, upload info to iNaturalist and have fun being a citizen scientist!</p>	Gedy Matisen, Tartu Nature House, the Baltic Sea Project coordinator in Estonia, for all ages
May 5th 14.30-15.30 CET	<p>Become a citizen scientist!</p> <p>During this workshop you will get information on how to attend the international 36-hours long Baltic Sea Project bioblitz using iNaturalist application (by Gedy Matisen). You will also learn why Europe is searching for Cowslip (<i>Primula veris</i>) plants and how to get involved in this research yourself and contribute to international science.</p>	Gedy Matisen from Tartu Nature House, Tsipe Aavik and Marianne Kaldra from University of Tartu, for students age 13+
May 5th 14.30-15.30 CET	<p>Virtual Escape room "Save the world"</p> <p>In the online escape room you are going to have the chance to escape from an eco-catastrophy. You are going to solve problems related to climate change, acid deposition, resource distribution, collapse of the pollinator colonies and many more. Can you solve them before it is too late?</p>	Luise Tikis, Tallinn English College, for teachers
May 5th 14.30-16.00 CET	<p>On the Hunt for Evidence of Microplastic.</p> <p>Plastic waste pollution has increased dramatically in recent years, with severe consequences for the organisms and the environment. With short experiments we will go on a hunt for microplastic in cosmetic products and sand samples from your beach at home.</p>	Dr. Dennis Stahl, for students age 13+

<p>May 5th 14.30-16.00 CET</p>	<p>In which world would you like to live? In this workshop we will be creating a common vision for a common future. If we want help to make positive changes, it is important to have a clear vision of where we want to end up.</p>	<p>Educational Greenhouse, for students 13+</p>
<p>May 5th 14.30-16.00 CET</p>	<p>Let's discuss about it. If you want to promote Global Citizenship among students, then bring them together and let them talk! Even better, let them discuss topics which interest them. That is what we will do in this workshop.</p>	<p>Jon Urskov, for students age 10+</p>
<p>May 5th 16.30-18.00 CET</p>	<p>Become a citizen scientist! During this workshop you will get information on how to attend international 36-hours long Baltic Sea Project bioblitz using iNaturalist and Seek application and how to create such bioblitz events yourself as a teacher for your class, school or the community. You will also learn why Europe is searching for Cowslip (<i>Primula veris</i>) plants and how to get involved and contribute to international science.</p>	<p>Gedy Matisen from Tartu Nature House, Tsipe Aavik and Marianne Kaldra from University of Tartu, for teachers</p>
<p>May 5th 16.30-17.30 CET</p>	<p>Virtual Escape room "Save the world" In the online escape room you are going to have the chance to escape from an eco-catastrophy. You are going to solve problems related to climate change, acid deposition, resource distribution, collapse of the pollinator colonies and many more. Can you solve them before it is too late?</p>	<p>Luise Tiks, Tallinn English College, for students age 12+</p>
<p>May 5th 16.30-18.00 CET</p> <p>May 5th 16.30-18.00 CET</p>	<p>Upcycling – DIY activity. Sustainable Living – 3 DIY's to reduce waste, wax Cloth wrap instead of plastic wrap, upcycled jars and tetra pack as plant container. Materials: You will need an old cloth, wax residues (candle), oil, an oven, empty glass jars, paint, brushes, empty tetra pak.</p>	<p>Vera Polle, for students age 10+</p>
<p>May 5th 16.30-17.30 CET</p> <p>May 6th 14.30-15.30 CET</p>	<p>Experiment: "Floating potatoes!" There is a fairy tale about happy people living somewhere in the far east. At that time, most shipments were made by large ships. One autumn, all the winter potatoes of eastern population sank with the ship. That day was a disaster. The next day the shore of the lake where the ship sank, was full of potatoes floating in the water. First time, people saw swimming potatoes. Is it just a fairy tale or can it happen in the real world? Materials: you will need 1 potato, 1 bowl where potato can fit, 1 kg of salt, 1 spoon</p>	<p>Mai-Liis, Vähi, Tartu Nature House, for students age 10+</p>
<p>May 6th 9.00-10.30 CET</p>	<p>EN-ROADS climate workshop. In the workshop, you will learn about different climate solutions and their impacts on greenhouse gas emissions and global temperature - your ideas will be interactively tested using the En-ROADS simulator.</p>	<p>Climate Hub Hamburg, for students age 12+</p>

<p>May 6th 9.00-10.30 CET</p>	<p>United Apalanga for Sustainable Future Participants will be able to roleplay decision makers from six countries situated around the fictional Apalanga Sea to discuss their mutual struggles and goals. During this workshop students and teachers will learn what is Model United Nations and how to design and run such roleplay activities in schools. Participants will also learn about topics and committees of EstMUN 2021 and get information about how to apply.</p>	<p>Andrey Pankratov, Secretary General of Estonian MUN and Viktoria Lepp, UNESCO ASPnet Coordinator in Estonia, for students age 15+ and teachers</p>
<p>May 6th 11.00-12.30 CET</p>	<p>Designing a virtual escape room In the online workshop teachers will learn how to design their own virtual escape rooms for students.</p>	<p>Luise Tiks, Tallinn English College, for teachers</p>
